\$150 Savings on the purchase of our March special package!

What are VI Peels?

VI Peel offers several formulated VI Peel treatments designed to lift pigment, remove sun damage, alleviate acne and scarring, and fight fine lines and wrinkles.

This peel is sub-dermal which means it peels more than just the top layer of your skin, giving you “baby skin”. It “peels” away surface damage and lightens underneath damage. It improves texture by smoothing away rough skin to reveal a more youthful, glowing complexion.

VI peels are safe for all skin types and tones with results in as little as 7 days!

We will select the peel best suited for your skin:

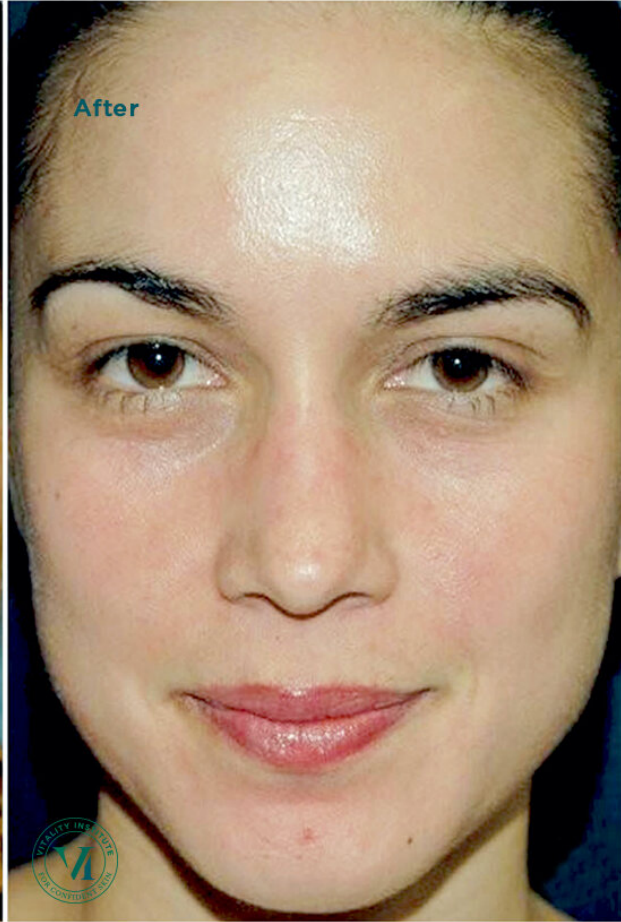

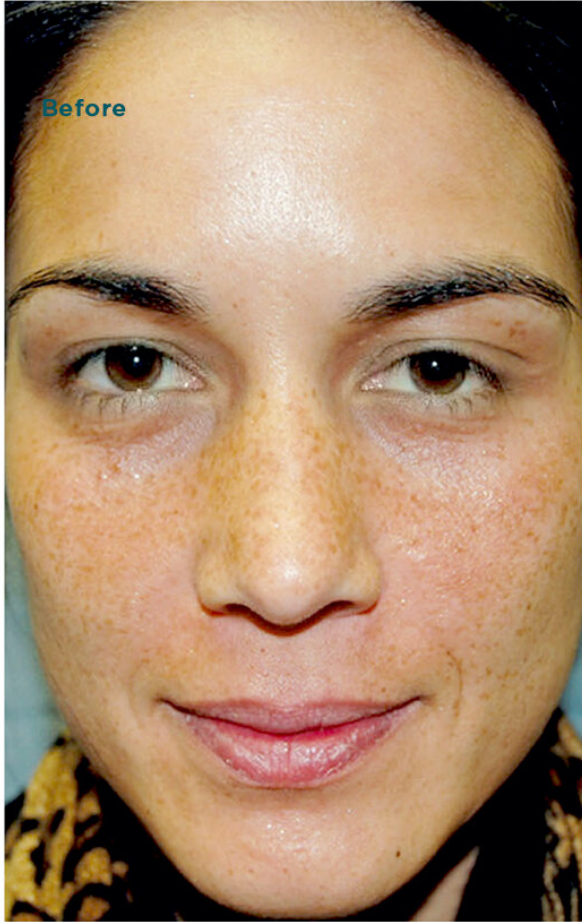

VI Peel Precision Plus
VI Peel Purify with Precision Plus

VI Peel Advanced
VI Peel Original

Vital T Serum

Three powerful antioxidants, green tea polyphenols, resveratrol, and caffeine USP, combine in this moisturizing formula clinically proven to reduce redness, calm and sooth the skin, and visibly reduces the appearance of fine lines, wrinkles, puffiness and pore size. This is good for all skin types, but if you have

very dry skin, you can substitute our Vital T Cream.

Experiencing Hair Loss?

PRP Hair Restoration Special

Many of us are experiencing hair loss due to Covid, stress, aging and other factors. Don't let it continue; jump start new hair growth with PRP treatments.

**Receive \$100 off your first session
or, for returning PRP clients
Receive a free Nutrafol hair growth supplement!**

What is PRP/PRF Hair Restoration?

PRP, Platelet Rich Plasma, and PRF, Platelet Rich Fibrin, are non-surgical medical procedure used for the treatment of thinning hair and hair loss. These minimally invasive procedures harness the body's own amazing healing and regenerative

properties to stimulate hair follicles and improve hair growth for both men and women.

During this process, a sample of blood is drawn and then spun in a special centrifuge. The blood is separated into two layers: red and yellow. The yellow layer is the PRP/PRF. The PRP/PRF is injected with a small needle, directly into the scalp in the problem areas.

The PRP/PRF contains growth factors that help to re-activate the hair follicles resulting in new growth and thicker hair. PRF is our newest technique which allows for a time release of these growth factors.

Botox and Juvederm Voluma Special

**\$100 off a syringe of Voluma
and, if you also purchase a Botox treatment,
receive another \$50 off**

A total savings of \$100 or \$150!

Voluma is an injectable hyaluronic acid gel that is designed to add volume beneath the skin's surface to lift and contour the cheek area.

Over time with aging, cheeks may flatten and skin begins to sag. This is caused by a natural loss of volume in the cheek area, called age-related midface volume loss. Voluma replenishes volume and fullness with results that last up to two years!

Voluma is also used to shape and enhance the chin.

Spring Lilac Aromatherapy Facial

Our Spring Lilac Aromatherapy facial utilizes the calming properties of lilac extracts to ease anxiety while soothing skin. Flower polish breaks down dead dull winter skin, while lilac infused steam hydrates and softens skin. A brightening mask with lilac extract restores moisture while tightening pores, leaving your skin soft, fresh and ready for spring.
